FORMATION

2023 - 2025

Master's degree, computer science specialisation (in apprenticeship)

Polytech Nancy, France

2023

DUT Physical Measurements

IUT de Blois, France

2021

Hight shool diploma, specialties math and physics (with honours)

Lycée Victor Hugo de Poitiers, France

EXPERIENCES

2025

Saft
Oskarsamn, Sweden

INTERNSHIP, INTERNATIONAL MOBILITY

- Support local team on software developpement.
- Create vision system with Basler Pylon viewer.
- Integration of systems with PCL.

2023 - 2025

Saft
Poitiers, France

APPRENTICESHIP, VISION CONTROL SYSTEM

- Creation of operator software.
- Using AI libraries from Python.
- Installation of systems on stations.

Avril - Juin 2023

CEA
Gramat, France

INTERNSHIP, OPTCIAL BENCH FOR CAMERAS CALIBRATION

- Creation of a bench and a software to equalize the cameras sensor's white noises.
- Creation of some other small Python applications for imaging.
